

ENERGY IN THE GREAT BASIN

**Saturday,
October 17, 2009
8:30 am to 8:00 p.m.**

Reception: 6:00 to 8:00 p.m.

Western Folklife Center

501 Railroad, Elko, Nevada

\$35/Free to current students*

*Photograph by
Linda Dufurrena*

A day-long symposium featuring presentations and moderated panel discussions that will cover traditional and alternative energy sources, as well as research and developing technologies with possible application for communities, industries, or individuals

Contact Tamara at 775-738-7508 x223 or visit www.westernfolklife.org for more information and to register.

Topics and presenters include:

Bureau of Land Management, Elko District Office: *Development and Permitting of Renewable Energy on Nevada's Public Lands*

Ann Carpenter, Geologist and Environmental Consultant: *Exploring Energy Security Through Innovation*

Craig Clausen, Resident: *Planning Our Energy Conserving Home*

Ruby Pipeline Project: *Description and Discussion of the Ruby Pipeline* (the natural gas pipeline going through Elko County)

Mike Kerna, Silver State Renewables, Inc.: *Federal and State Incentives*

Great Basin College, Students: *Energy Systems Technologies*

This event is sponsored in part by a grant from the Nevada Humanities, and is organized by the Western Folklife Center and the Northeastern Nevada Stewardship Group with additional support from Great Basin College.
